WASHINGTON, D.C. 20520

Dear Mr. President,

I respectfully request that you bring Raoul Wallenberg's release to the attention of General Secretary Mikhail Gorbachev at your Summit in Moscow.

I have the utmost confidence in your ability to bring this matter to Mr. Gorbachev's attention in the sensitive manner which this situation demands. I do not want to interfere in your efforts to secure good relations with the Soviets. I believe, however, that Raoul Wallenberg's release would demonstrate to the world the sincerity of Mr. Gorbachev's program of glasnost.

Please, Mr. President, for the sake of Raoul Wallenberg's life, I ask you to ask Mr. Gorbachev that Raoul Wallenberg be released to his family in Sweden.

Mr. President!

The open letter.

I am sending you this letter on a piece of paper which they did not give to me in "Raoul Wallenberg Committee" in New-York, where I was received on 10th May 1988, but the president of this committee, Mrs. Rachel Nagel (this was our second meeting with her, the first one was in "Edonian House" N.Y. from where I with my family were thrown "nicely" out 14. May 1988, with my husband and our two children, over looking the fact that we are Estonians (I also by documents) and that they are our guarantors in USA), that is why I had to take this paper secretly.

I am asking from you the explanation about the question of my case? On the 18th February 1988, I was permitted to leave Soviet Union (this permit was given a year before, but I did not get the "Vizov"), where we lived in Estonia in the city of Tallinn. We had time to leave Soviet Union practically only 5-days (on the word of 20-days), they said that behind us have stood persons in the West, in the West was Raoul Wallenberg's sister Nina Lagergren, that is why we did not pay for visa and for the taking away of our citizenship (a 700-000), and that was also the reason why we had so little time to leave Soviet Union. This is very extraordinary case, because we are not dissidents of the religious people.

I was among a group of women with my young son in the Estonian action. The official version was, that I was born in Estonia (in Berlin or in. envelope) in the end of the year 1943 or in the beginning of the 1944. That my mother was French, and that she was taken, with me, by Germans, and taken to the territory of Estonia to be executed, where I miraculously escaped. I thought very seriously wounded. I have on my body some big scars and one piece of metal is in side my liver now, so they say in the territory of my spine - that by the way, the doctor who examined me in Rouen, did not write down!!

My father's ancestors were from Germany and had a title. My first name is (as they say) Inge (or Inga), and my family name is (as they say) von Wallenberg (that the ancestors are the knights of [Bohemia] - with the titles, from Breslau - now Wrocław, it belongs to Poland now).

The reason why I could leave Soviet Union (was said to me in Estonian KGB and by the workers of OWIR), was that I could make investigations about my ancestry in the West, in Europe and that I can become the person who I see when I borned.

We even got congratulations from the vice head of the Estonian OWIR, from Mr. Tupits, when he gave us our visas. Interesting situation!

All this is known in details to many different countries and to their governments, in the West, the consulates and embassies - in Leningrad and in Moscow and to the persons who are dealing with the case of Raoul Wallenberg. Because I was last year in contact (at the time I was still living in Estonia), with the West-Germans, OSF and with the French and Canadian representatives, and my husband contacted the Mr. Andrei Dmitriyevich Saharov and his wife Elena Georgievna Bonner in January 1988, with Mr. Juris Koller, who was in Moscow, investigating the case of Raoul Wallenberg, to whom he said that he have met and talked with Raoul Wallenberg in jail. It is an understandable, why this was kept a secret in the West, only "the Voice of America" said about this (only by the accident) on 23. February 1988, in their program in Estonian language! And it have been impossible to have contact with Mr. Koller, thought he have tried to contact him and that him many messages. Is it not queer? Why the press of the Western World is not writing about it, even the radio station "Free Europe" did not take interview from us, and not to speak about the newspapers with to Greece and in "Estonian House"?!

I have got such an impression, that the West does not want to take notice of us and especially of me, and from this I have made such conclusions, that the Western World wants to get free from us, like sending us to South-Africa or back to Soviet Union, but does not allow us to live in Europe (let's say in Sweden, West-Germany, France, England, Switzerland), where we want to live and still want.

I will not write now about all the details, but I will ask a question, why can't an ordinary woman (that is I) investigate who were her parents, whose ancestors are from France and Germany, why is it bothering someone? What is the question? Even the famous Mr. Arnon Weizthal received us in Vilnius (we talked with him an hour) and promised to help us, but have not done that, why? I just said that I believe that I have a Jewish blood in me and that I think that I am the victim of fascism, and I am an invalid because of the wounds I have (I remember slightly about the wounding) and I need a medical treatment because of this. Then why I have not received the written answer, is it "no" or "yes" does not matter, will I was promised to get?

of Swedish Diplomat Raoul Wallenberg. That said also the known Estonian dissident Kalle Aho (and Juri Luik) in our apartment, in January 1988 in Tallinn, when they both were in our home and where they take pictures of us and asked permission to live with them the old photos of us and say so, they said, that they had the mission from Raoul Wallenberg's sister Nina Lagergren to do that, from Sweden, because of the pathological investigation.

By the way Kalle Aho is right now in America (he was sent out from Estonia, and is living now in Stockholm) and if you are really interested in this case, let's make a meeting. I am not afraid to say the truth. But here in the West the things have gone much worse even the official persons are claiming me a daughter of Raoul Wallenberg, but they say that the family Wallenberg will never say in public who I am, because they do not want to give me the big legacy which they say, belongs to me. This all began already in Vienna in Rome and is now continuing here in New-York. The things have gone so far, that I asked Mrs. Rachel Koppel to give me a written document, and also from Swedish vice consul in New-York, from Mr. Greta Zachman, but they did not give me the document I asked for, because, as they said, they can not say that it is not so, they can say only the sister of Raoul Wallenberg Nina Lagergren, am I the daughter of his brother or not. But the meeting with Nina Lagergren have also not taken place yet, though we talked with her by telephone in Vienna and now on the 10th of July 1988 Mrs. Rachel Koppel wanted me to write a letter to Nina Lagergren, but still we do not hear nothing from her. Is it not strange, that we can't get over the answer, no?

I need the true answer about who I am and the Government of United States can give it to me, because I and my family is under to the United States of America against our wishes, but we have the permission to live here (we wanted to stay in Europe).

By the way, I asked my husband to send you a letter, which he did (earlier blind) on 5th May 1988 which you received the same day (it can be seen from the "Return Receipt"), where is said that my husband have met with Raoul Wallenberg in jail. The same letters we sent to the 12th May 1988 to Mr. Tom Santos in Washington and to Mr. Irwin Koller in Canada - but we have not got over the "Return Receipt" back yet?

Why is there such an indifference concerning the evidence about Raoul Wallenberg, when we are here to give the information, because before us all the evidence concerning Raoul Wallenberg have been taken from the persons who had it and have made it public (we are reading here in America, the material about Raoul Wallenberg and so on).

In Rome, in the political sector of the Embassy of the United States of America they told us quite different story. Did Lily tell that on purpose, so that we shall go to the United States? Because from Vienna we were sent to Rome with the false document (I will put the photocopy of this false document to the same envelope with this letter). And the Swedish General Consul in Sweden (where we were on 04.08.1987, and where I met with the General Consul who said that I am Wallenberg, and who recognized the signs and special signs on one of these things which I had with me, when I happened to Estonia, it was on 1944 (or 1945) (and these things were done - who is it, Kalle Aho, Wallenberg's sister, Nina Lagergren).

will live it there, already on 05.10.88 in the consulate of United States. They saw the same thing and asked us to make the pre-emigration visa, because they explained, that by some reasons we must at first go to the United States of America, but after that we can go to any country in Europe and in the same time from the Swedish consulate they asked us, are we ready to take right away the citizenship of United States of America, we said yes. By the way on 04.08.87 the Swedish General Consul gave to me and my husband and my children the application to go to Sweden, which we did and take they said to us, that we have the permission to go to Sweden. But when we arrived to Vienna, there was no passport waiting for us, as was said, but they wanted to send us to go to Israel (it was our last that we did not write down the document because of fear we did not understand, and only that this to put the ordinary procedure). This also was a lie.

I think, that there is no need to say how many laws of human rights there have been broken concerning us and all those fooling, which have been made with me and my family, beginning from 19.02.88 - this would be a long list and I am not complaining and do not want revenge, I just want the justice - but in the next of info I will say few facts I have and which I can prove: that the 5-delegations of the Congress of Human Rights in Vienna, have not given me the answers to my letter to them (those countries are USA, Canada, France, West-Germany and Sweden), and that the Swedish and West-Germany did not give me the political asylum, which I asked from the Embassies, from those countries, in Vienna. (By the way, in Vienna) turned personally to the Swedish Government, but after three weeks they give me the answer on the name of my husband, that he has no relatives in Sweden, and that is the reason why the Sweden can not give us the political asylum.

I will not even mention about the United Nations in Vienna, which did not answer to us and about the "Red Cross" which gave the written document that this is not in their competence and that the French Embassy in Vienna also did not answer to us and so on. As you can see, there are too much such facts, so that nobody can not say that this are coincidences or that this is our faulting. These are the facts (and also very unpleasant ones also to you).

This is unforgettable that we are treated so badly here in the United States (here they do not even cure my teeth, when they are ill and there to pain, like I have!!!), where we did not want to come, and we said that to American Embassy in Rome, from where they said to us "okay" and "fortunate" - but it is - - - - -! And of course on such conditions we will not stay here, because we left Soviet Union only on condition, that I shall know my real name, but if the West does not allow that to happen (or does not say who) me, as people here are saying to me all the time, in this case in United States, I must go back to Soviet Union, because there live my mother by documents (maybe my real mother).

And by the way, I turned to the Government of Soviet Union on 18.05.89 and asked them to bring out the documents concerning my real name, and also to bring out the documents concerning my mother and Soviet Government

and it does not matter to it in the West or in the East.  
I am asking you Mr. President, to give me the personal answer, because now I have been named as the daughter of Rasoul Wallenberg (I know I can ask the sister of Rasoul Wallenberg Nina Lagergren and his brother Guy von Dardel in Switzerland to give me the answer), because with such a life is impossible to live, if it is not so (but if it is so, then I have the moral obligation, to begin the campaign of saving my father from Soviet Union or to know the right facts about his death if he is dead and to begin to lead this fight with I shall win). And I ask You to do that before You meeting in Moscow with Mr. Gorbachev, because I do not want to live not knowing the truth, especially if we will be known out from the apartment where we are now staying (only permanently), that was named to us already from the organization "I.R.C." (International Rescue Committee), under which we are, and who is keeping us in minimal conditions, which means that we are practically hungry in some days!!!

I am saying straight that on my free will I will not leave this apartment, let the police throw us out, I will call out the press and I will tell them all my story and will also inform the Soviet Government/ because I was the citizen of Soviet Union. I am ill person, have suffered much and lost all my possessions and the only thing I have to lose is my life and if somebody in United States of America have the right to save it anyway, then please.

But I will say also before that this what I have already said. My husband and our children also think so. We are not ordinary emigrants, but the family who had the permission to leave Soviet Union because of the humanitarian reasons and if the West is treating us unhumanly, I will turn back. Even when I am really the daughter of Rasoul Wallenberg. I am saying once more, that I am not claiming to be his daughter, but the facts are with shows that it can be so.

I need right now the written document, so that this thing will be cleared up, because if it have gone too far and is too serious, that this is already politics.

I did not come to the West with my family at home-Crifo, so that do not that from me.

With my respects
